CO-OP MARKETING

There has never been a better time to participate in NeuroStar's Co-op Marketing Program to guide patients to a new possibility for depression treatment. Partner with NeuroStar in marketing to maximize your reach and spread awareness for your practice. Together, we create an amplified message to better reach patients searching for an alternative treatment option.

Why should you participate in NeuroStar's Co-op Marketing Program?

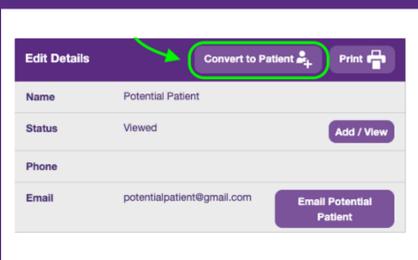

- NeuroStar covers up to **50%** of your pre-approved co-branded advertising
- We provide pre-designed **proven** advertising materials
- We've sourced preferred vendors with **great** marketing plans

Join the upcoming Co-op Marketing Webinar in March to learn what's new with co-op and how it can help you spread awareness!

TRAKSTAR TIP OF THE MONTH

Convert Potential Patients to NeuroStar Patients in TrakStar by clicking **Convert to Patient +**. With the click of a button, all your patients' PHQ-10 scores and personal data transfer automatically in the patient details section. Save yourself time by not duplicating data already available in TrakStar. Use the **Convert to Patient +** button today!

Are there features you would like to see in TrakStar? Let us know by completing our survey!

REIMBURSEMENT CORNER

Many patients' insurance benefits reset or change after January 1st. Best practice is to always check patient benefits after the first of the year to ensure your patients are aware of their financial responsibility, especially if they're currently in treatment.

We understand this is an extra administrative lift which is why we offer benefit investigations through NeuroStar's Reimbursement Support Team. Talk to your Practice Development Manager (PDM) or Reimbursement Manager today about submitting BIs through TrakStar!

NEUROSTAR IN THE NEWS

Data was published in the *Journal of Clinical Psychiatry* confirming the efficacy of NeuroStar for treating anxious depression. This an exciting milestone as NeuroStar's first peer-reviewed publication in anxious depression. Once again, TrakStar continues to be the hero of the story, as it was TrakStar data entered by NeuroStar providers that allowed the authors to analyze real-world outcomes.

Patient Email Templates: Treat to Complete Collection

Engage your patients beyond their visits to your practice by sending email touchpoints throughout their NeuroStar treatment journey with our new Treat to Complete email collection available on myneurostar.com.

Effective communication helps patients complete 36 treatment sessions which is critical to achieve optimal results. On average, patients who complete 36 treatment sessions have an average of 11+ points improvement in PHQ-9 scores.

Depression Isolates. NeuroStar Connects.

The NeuroStar Advanced Therapy System is indicated for the treatment of depressive episodes and for decreasing anxiety symptoms for those who may exhibit comorbid anxiety symptoms in adult patients suffering from Major Depressive Disorder (MDD) and who failed to achieve satisfactory improvement from previous antidepressant medication treatment in the current episode.

The NeuroStar Advanced Therapy system is intended to be used as an adjunct for the treatment of adult patients suffering from Obsessive-Compulsive Disorder (OCD).

Visit neurostar.com for full safety and prescribing information.
