

STAR CONNECTION

1 year

HAPPY STAR-IVERSARY!

1-year has flown by since *Star Connection* first appeared in your inbox. Huge, right? Remember that first TrakStar® tip you read? Or that time we invited you to a Co-op Marketing webinar because we just can't get enough of you? We won't talk about that time you pressed delete - we're sure it was an accident.

monthly subscribers

It's okay if you didn't remember our Star-iversary, you're still welcome to celebrate with us! At 1-year, the common gift is usually paper...maybe thinking: hello, plane ticket to NeuroStar® University!

Although we can't personally buy your plane ticket to NSU, you can use Co-op dollars to **get 50% back on NSU travel**, and that's pretty sweet! We hope to see you there. 😊

VISIT NEUROSTAR UNIVERSITY

TRAKSTAR TIP OF THE MONTH:

Get there **FASTER** with TrakStar by sourcing new NeuroStar patients. The **Potential Patients dashboard** is the **#1 tool** to view, sort, and find ideal patient candidates sent to you via your NeuroStar Physician Locator listing, or from your unique PHQ-10 questionnaire.

LEARN MORE

CO-OP MARKETING:

Co-op Reimbursable Merchandise is now on the **webstore**. Patients who have struggled to find help for their depression often just need to know there's another option. Give your patients the opportunity to **ask you** about NeuroStar TMS by adding a **pop of purple** to your outfit with our new lapel pin or other select merchandise. **Use your Co-op dollars to get 50% back!**

NEUROSTAR IN THE NEWS:

Neuronetics was awarded the *Patient Impact Award* by **Life Sciences PA** for the significant contribution NeuroStar TMS adds to the quality of healthcare for patients. **Thank you, NeuroStar Providers**, for partnering with us to ensure NeuroStar TMS is available and accessible to those who need it most.

Depression Isolates. *NeuroStar* Connects.

The NeuroStar Advanced Therapy System is indicated for the treatment of depressive episodes and for decreasing anxiety symptoms for those who may exhibit comorbid anxiety symptoms in adult patients suffering from Major Depressive Disorder (MDD) and who failed to achieve satisfactory improvement from previous antidepressant medication treatment in the current episode.

The NeuroStar Advanced Therapy system is intended to be used as an adjunct for the treatment of adult patients suffering from Obsessive-Compulsive Disorder (OCD).

Visit neurostar.com for full safety and prescribing information.
