Patient to Patient: Sharing Your Experience can help Others

Congratulations on completing your NeuroStar® TMS treatment!

You know first-hand how NeuroStar transcranial magnetic stimulation (TMS) provides hope and transforms lives. Help us spread the word to others who need a new possibility for their depression treatment by sharing your personal story and encouragement.

Life With Depression Before NeuroStar TMS

1. Before your NeuroStar treatment, how long had you been suffering from depression and how many medications or other treatments had you tried?

2. How was depression affecting your life and your relationships?

3. How did you choose which practice to go to for your NeuroStar treatment?

Your Experience With NeuroStar TMS

4. What were your initial expectations about NeuroStar before you started your treatment?

5. How would you describe the NeuroStar treatment experience to someone thinking about trying it themselves?

6. What did you appreciate the most about your treatment experience at our practice?

Life After NeuroStar TMS

7. How has NeuroStar TMS helped change your life?

8. What hobbies or and interests are you now able to enjoy because you are no longer dealing with depression symptoms?

9. Sometimes friends and families are our greatest support systems. What have your loved ones said about your treatment experience at our practice?

Inspire Others To Tap Into The Possibility of NeuroStar

10. Would you recommend our NeuroStar practice to others you know? If so, why?

11. What would you like others to know about NeuroStar TMS and our practice?

12. What advice would you give other people who may be struggling with depression the way you were before NeuroStar treatment?

The NeuroStar Advanced Therapy System is indicated for the treatment of depressive episodes and for decreasing anxiety symptoms for those who may exhibit comorbid anxiety symptoms in adult patients suffering from Major Depressive Disorder (MDD) and who failed to achieve satisfactory improvement from previous antidepressant medication treatment in the current episode.

The NeuroStar Advanced Therapy system is intended to be used as an adjunct for the treatment of adult patients suffering from Obsessive-Compulsive Disorder (OCD).

NeuroStar Advanced Therapy for Mental Health is available by prescription only. Visit neurostar.com for full safety and prescribing information.
